PROFESSIONAL SUMMARY

B.Tech Computer Science graduate and MERN Stack Developer with Deployed full-stack applications spanning auth systems, REST APIs, and cloud deployment. Strong across the full stack — MongoDB schema design to React architecture — and use AI-assisted workflows (Claude, ChatGPT, Codex) to ship faster without compromising quality. Seeking a Software Engineer role where I can deliver production-ready features from day one.

EXPERIENCE

MERN Stack Developer Intern

FlexTenure Solutions Pvt. Ltd. | Remote

Jul 2026 – Present

- Developing production-ready MERN applications using MongoDB, Express.js, React.js, and Node.js while implementing scalable REST APIs and secure authentication.
- Collaborating with the development team to build new features, resolve bugs, integrate databases, and maintain clean, efficient code using Git and GitHub.

PROJECTS

1. GymForge — Full-Stack Fitness Platform

MongoDB | Express.js | React.js | Node.js | Tailwind CSS | JWT

🌐 Demo 🐙 Code

- Developed a MERN fitness platform featuring JWT authentication, protected routes, and AI-generated workout plans.
- Designed MongoDB schemas and built secure REST APIs for user management and workout tracking.
- Deployed the full-stack application using Render and Vercel with responsive UI design.

2. ATS Resume Checker

React.js | Node.js | Express.js | REST API | Vercel

🌐 Demo 🐙 Code

- Built a full-stack ATS Resume Checker supporting PDF, DOCX, and TXT uploads with AI-powered resume analysis.
- Developed REST APIs to compare resumes against job descriptions and generate keyword-based ATS scores.
- Deployed the application on Vercel with optimized file validation and fast response times.

3. LeetCode Metrics Tracker

React.js | REST API | Vercel

🌐 Demo 🐙 Code

- Built a React dashboard to visualize LeetCode statistics using public REST APIs.
- Implemented client-side caching to reduce API requests and improve loading performance.
- Deployed the application on Vercel with a responsive and user-friendly interface.

4. Personal Portfolio Website

React.js | Tailwind CSS | Vite

🌐 Demo 🐙 Code

- Designed and developed a modern responsive portfolio showcasing projects, skills, and certifications.
- Optimized performance, accessibility, and SEO with Lighthouse scores above 95.
- Deployed the portfolio using Vercel with a clean, mobile-first user experience.
